Professional Summary

An experienced Data Scientist and AI Engineer with hands-on experience in data preprocessing, model development, and analytical problem-solving. Worked on real-world projects involving AI integration, machine learning and deep learning. Experienced in handling datasets, improving model performance, and supporting end-to-end project workflows from data preparation to evaluation. Passionate about applying AI to practical business and research challenges.

Tech Stack

Programming: Python, SQL

Data Science: Pandas, NumPy, Scikit-learn, Feature Engineering

Machine Learning: Regression, Classification, Model Evaluation

Deep Learning: TensorFlow, Keras, CNN, ResNet, Inception, Xception

NLP / LLM: RAG, LangChain, Embeddings

Data Visualization: Power BI, Matplotlib, Seaborn

Tools: Git, Jupyter Notebook

Work Experience

Artificial Penetration Software Solution Company, Hyderabad, India

Data Scientist & AI Engineer | Jun 2023 - Nov 2025

- Performed data preprocessing, cleaning, and feature engineering on structured datasets.
- Conducted exploratory data analysis (EDA) to identify patterns and trends.
- Built, trained, and optimized machine learning models for predictive tasks.
- Worked on AI-driven solutions including chatbot development and automation workflows
- Contributed to natural language processing (NLP) tasks for text-based applications
- Assisted in developing intelligent systems such as voice recognition / speech-based features

Devsed Design Agency, Hyderabad, India

Full-Time Intern – Data Scientist | March 2022 - May 2023

- Analyzed structured and unstructured data to generate actionable insights
 - Supported data preprocessing and transformation for analytics tasks
 - Automated data-related processes using Python scripting
 - Contributed to projects involving basic machine learning / predictive analysis
 - Supported development of intelligent workflows and automation solutions
 - Created reports and dashboards for performance monitoring
-

Projects

Multimodal Biometric Recognition System

- Developed a multimodal biometric recognition system combining facial, fingerprint, and iris data for robust user authentication.
- Built and trained CNN-based deep learning models to learn discriminative biometric features and improve identification accuracy across modalities.

Tools: Python, TensorFlow, Keras, OpenCV, NumPy, CNN, Deep Learning, Image Processing, Matplotlib, Jupyter Notebook

Cancer Death Cases Forecasting

- Developed supervised ML models (Random Forest, XGBoost) to predict cancer mortality rates.
- Led data preprocessing and evaluation achieving high predictive accuracy.

Tools: Python, Pandas, NumPy, Scikit-learn, XGBoost, Matplotlib, Seaborn, Jupyter Notebook, Feature Engineering, Machine Learning, Model Evaluation

Endometrial Cancer Detection

- Designed CNN, ResNet, Inception, and Xception models for medical image classification.
- Deployed solution for real-time cancer detection and monitoring.

Tools: Python, TensorFlow, Keras, OpenCV, NumPy Deep Learning, CNN, Transfer Learning, Image Processing, Medical Image Analysis.

Medical Query System (RAG)

- Built a Retrieval-Augmented Generation pipeline for clinical Q&A.
- Integrated OpenAI GPT models and biomedical datasets with ~95% retrieval accuracy.

Tools: LangChain, FAISS, OpenAI API, Embeddings, Vector Database, NLP, RAG Architecture, Semantic Search, Transformers, Prompt Engineering.

Education

B.E. Computer Science Engineering (Artificial Intelligence & Machine Learning) | 2021 – 2025

Lords Institute of Engineering and Technology, Hyderabad, India

- Focused on Machine Learning and Deep Learning applications
- Completed projects in Healthcare AI and Predictive Modeling
- Worked on AI-integrated solutions involving data analysis, model development, and real-world problem solving

Master of Science in Artificial Intelligence | Present

Heriot Watt University, Dubai, UAE

- Currently pursuing advanced studies in AI, ML, and data-driven systems
 - Building deeper expertise in intelligent models, analytics, and AI-driven solutions
-

Certification

- **Oracle AI Foundations Certification** – Oracle, India.
 - **AI Engineer & Data Scientist Internship Certification** – Artificial Penetration Software Solution Company, Hyderabad, India.
 - **Data Scientist Internship Certification** – Devsed Design Agency, Hyderabad, India.
 - **Data Science Certification** – LearnAI Academy, Hyderabad, India.
 - **Data Analytics Certification** – LearnAI Academy, Hyderabad, India.
 - **Cybersecurity Internship Certification** – HuntMetrics Company, Hyderabad, India.
-

Additional Information

- Open to full-time roles and relocation
- Active contributor to AI/ML communities and research discussions
